

CHEMISTRY IN SOCIETY

ASSIGNMENTS

CHAPTER 11- pp. 371-399

We have studied the foundational information about the physical properties of gases. The Gas Laws have been covered individually in this packet with detailed explanations & examples as to how to do each different kind of problem.

HW CHECKLIST

- 1. Temperature Conversion WS**
- 2. Boyle's Law WS**
- 3. Charles Law WS**
- 4. Gay-Lussac's Law WS**
- 5. Combined Gas Equation WS**
- 6. Chapter 11 Vocabulary Review WS**
- 7. Chapter 11.1 Study Guide**

*** REMEMBER-**

- 1. Watch your email for updates on lessons as we adapt to this situation.**
- 2. E-mail me with questions and concerns- I'll get back to you promptly (reasonable hours please!)**
- 3. You are all INTELLIGENT students with more than enough math experience to work out these problems. We've done MUCH HARDER stuff than this! I HAVE FAITH IN YOU!!**
- 4. I'll collect work when we return to school unless you are instructed otherwise in the coming weeks.**
- 5. Please be smart about your activities- this is a critical time in your life and in the history of this country and the world!**
- 6. I'll Miss Seeing You!**
