Music Ideas for next few weeks
By Mrs. Ramsey

PRE-K thru 2nd Grade

We have been working with the colored bells and learning solfege.
Go to YouTube.com and type in the search bar: preschoolprodigies.com
There are many activities to do if you explore this site.
There are also free apps (preschool prodigies) to download and play the colored bells via a device.

Third Grade -Fourth Grade

We are starting to learn about the music note system. There are many resources online about learning the treble clef music staff lines and spaces. You can also find information via YouTube. The lines are E G B D F (bottom to top) and the spaces F A C E (bottom to top) of the staff. You can also learn to create some words with the musical alphabet, ABCDEFG. See how many words you can create using the musical alphabet. You may use the various letters more than once. We will compare notes and see who has created the most words when we are back in session.

FIFTH GRADE CHOIR and SIXTH GRADE CHOIR

There is a link on YouTube that has "A Tribute to Queen" soundtrack that you can listen to and learn the melody to our next medley.

FIFTH GRADE NON CHOIR

You can continue to revamp your ringtone assignment. Also, you can explore the Soundtrap site and if you wish, there are suggestions under the one tab that gives you little projects to try to do.
Also, there are tutorial videos that are available on line.

SIXTH NON CHOIR

Go to Soundtrap and explore the music site.

FIFTH BAND

Continue working on pages 15 & 16 in the band book and Star Wars.

Sixth BAND

Continue working on pages 24 & 25 in the band book, Star Wars, and Shallow
