

Stanton 6th Grade Mathematics

Mrs. Tice

Thank you all for your patience during this time. It is important that students continue to review their skills. The following assignments all focus on concepts and skills that have been taught during this school year. If this event lasts longer than expected, more options may need to be added. If there are any questions or you would like your child to work on a specific set of skills, please feel free to email me at jordan.tice@edisonwildcats.org.

Stay safe,
Mrs. Tice

Here are a few options for work to do from home

- **Student at Home Activity Packet**
 - <https://capubstore.blob.core.windows.net/athomepdfs/iready-at-home-activity-packets-student-math-grade-6-2020.pdf>
 - This packet reviews the major skills for sixth grade math
- **Khan Academy**
 - Log in to khanacademy.org with school google account information
 - Click on courses in the top left hand corner and then click 6th grade math
 - There are eight different categories to work on. The majority of the concepts have been taught. The list below are concepts that we have not yet worked on. I would avoid these.
 - Geometry
 - 3D shapes, volume, surface area, and polygons on a coordinate plane
 - Data and Statistics
 - We have not discussed any topic in this category
- **Prodigy**
 - Prodigygame.com
 - Students will need to log in with their school google account.
