

Computer Plans for the Three Week Closure

Stanton Elementary

During this time away from school, the students should continue to read as much as possible and continue to enhance their reading, math and typing skills. Students and parents can download the Clever App and there they can download their Clever Badge. With the Clever Badge, they can sign into their Clever Portal and access Lexia and other various websites.

Clever is found at <https://clever.com/in/edisonwildcats> Once you do that, you can log in with Google, that is their email address (first.last@edisonwildcats.org) and password elsd#### (elsd and last four numbers of student ID number/lunch number) The student ID number can also be seen in Progressbook on the upper right side of the page under the student name.

Each week, the students have me once a week for forty minutes a class. For the next three weeks, the students should log on and do the assignments at least once a week for forty minutes.

For grades K-3, the students should log on to Lexia using the Clever Portal and do at least forty minutes a week of Lexia. This will reinforce some of the reading skills they are learning in class. Students can also go to www.abcya.com and www.starfall.com and utilize those two websites to increase reading skills as well as their math skills.

For grades 4-6, the students should continue to work on their typing lessons on the website www.typing.com Students should know their log ins. The students will need to do one lesson per week that we miss. They do not need to do any more than three lessons. Students can also go to www.abcya.com and practice their reading skills as well as their math skills.

Look forward to seeing everyone after the closure. Be safe and take care of yourself!

Mr. Smith
